PROFESSIONAL EXPERIENCE

March 2022 – Jan 2023

Industrial Analyst, GRI BRASIL

Budgeting for the manufacture of wind towers • Projects to reduce process time • Projects for the development and acquisition of new technologies • Monitoring supplier works • Product management between customer and manufacturing

April 2021 – March 2022

Process Engineering Analyst, STELLANTIS LATAM

Responsible for managing and controlling the production process: Line balancing, job saturation and process flow • Daily monitoring of production and solving problems quickly and assertively • Develop continuous improvement projects based on the WCM methodology • Raise budgets and specification of machines and monitor suppliers

March 2020 – April 2021

Process Engineering Intern, FCA LATAM

Learn about the WCM methodology and manufacturing processes in order to develop continuous improvement projects • Assist in the management of process documents that support manufacturing • Develop quick-connect CAD projects, terminals and manufacturing working benches.

Sept 2019 – March 2020

PCP Intern, EUROCONTAINERS BRASIL

Monitor production KPI's and identify losses and improvement points in the process • Track product costs • Participate in production planning • Manage resources and people.

EDUCATION AND OTHER EXPERIENCES

JUN - 2022

Mechanical Engineering - UFPE

2015 - 2017

BAJA SAE Program- UFPE

Develop management skills and practices for manufacturing off-road Baja prototypes • Know all subsystems design (Transmission, Brake, Suspension, Electronics and Body) • Manage and execute engineering projects • Set goals, perform and assign tasks to team members • Team machining coordinator.

2022 - 2023

Specialization in Engineering and Data Analysis - CESAR School

KNOWLEDGE AND SKILLS

Project Management	English - Avançado
Communication	Portuguese - Native
Teamwork	Office (PPT, Word, Excel e VBA) - Advanced
WCM Methodology	Solidworks - Advanced
WCM Tools	Power BI - Intermidiate
Problem Solving	Python - Intermidiate
Lean Principles	Metodologia Ágil SCRUM - Basic
	Lógica de programação - Basic
